STLE examinations at SAIT

The South African Institute of Tribology will host three examinations of the Society for Tribologists & Lubrication Engineers (STLE) on **22 November 2019**. The venue is Science Park, Kelvin, and time is from 09:00 to 12:00.

The exams are open to SAIT members in good standing.

- **Certified Lubrication Specialist (CLS)** Although not compulsory, it is highly recommended that you first attend the SAIT five-day ‘Lubrication Engineering’ course. A distinction of 75% is a good indication of success in the CLS exam, where the standard is high and the pass mark is 70%. The recommended books for the CLS exam are the STLE Alberta Section ‘*Basic Handbook of Lubrication*’ Third Edition, and/or the AIST ‘*The Lubrication Engineers Manual*’ Fourth Edition.
- **Oil Monitoring Analyst (OMA I and OMA II)**
- **Certified Metalworking Fluids Specialist (CMFS)**

Recommended reading for all modules is on the STLE website www.stle.org under “Professional Development”.

- Preparation notes and exercises will only be forwarded to delegates after 1 October 2019, on condition payment has been received.
